

THE PACKER

For 113 Years, the Business Newspaper of the Produce Industry

CXIII, No. 25

June 19, 2006

On May 1, Novazone Inc., Livermore, Calif., appointed **Michael Weber** as its vice president of engineering. He will lead research and development for the company.

Weber spent a year at his most recent position as vice president of engineering for Nanometrics Inc., Milpitas, Calif. He has received 10 U.S. patents and has more than 20 years' experience in the engineering, technology and management fields.

Weber succeeds **Paul Dick**. Dick now works as a contractor for Novazone.

WEBER
