Novazone, a provider of clean technology solutions for food and water, announced it will participate in Gov. Arnold Schwarzenegger's California/Mexico Environmental Trade Mission to be held in Monterrey, Mexico, today and Friday. Gov. Schwarzenegger is leading a trade mission to promote stronger economic relations between California and Mexico with an emphasis on environmental and energy related issues, such as food safety. The governor invited a select number of companies from California that represent a broad spectrum of environmental and energy related markets. Novazone was chosen for its focus and leadership in clean technology solutions for food and water
