Novazone names plant pathologist

LIVERMORE — Novazone, a leading provider of ozone-based services to improve freshness and safety of food and water, announced the appointment of Randy McLaughlin, Ph.D. as applications engineer.

McLaughlin is responsible for the development, testing and refinement of ozone-based cold storage, disinfection and sanitization solutions for fresh produce and processed food.

McLaughlin will be based in the Pacific Northwest.

He is a former U.S. Department of Agriculture plant pathologist with more than 25 years of experience, the company said.
